

Making Your Medical Wishes Known
ADVANCE CARE PLANNING WORKSHOP

MEDILODGE
OF GTC

Wednesday, April 24th | 6-7 PM

2950 LaFranier Road | Traverse City, MI 49686

Since we never know what may happen on any given day and life can bring unexpected twists and turns, it can be difficult to know what decisions may need to be made. Medical issues sometimes arise that create confusion and uncertainty for patients, their families, and medical staff. Everyone wants to do the right thing — but in some cases, it's not always clear. A little planning now will save those dearest to your heart unneeded stress later. The best time to talk about the type of medical care you may or may not want is when you don't need it.

- Discuss healthcare decisions that may impact quality of life now, in the future, and at the end of life.
- Recognize the importance of choosing the right person to communicate your wishes if you are ever unable to do so.
- Learn how to have conversations with loved ones about your goals for living a meaningful life.
- A page-by-page walkthrough of an advance directive with instructions for how to complete one.
